

March 30, 2018

MTS Freight will revise its general rates, by 5.95%, effective April 16, 2018. The general increase does not apply to contract pricing or transportation agreements with a specific expiration date. Absolute minimum charges will increase by \$3.00.

The rate increase is being implemented to help offset the rising costs of doing business; including Federal regulatory compliance, higher equipment costs and wage pressure associated with the nationwide driver shortage.

If you have questions regarding our service or this rate increase, please contact your local account representative.
